

PERTH FIR

Perth Control (Perth Center)
135.250Perth Approach/Departure
118.700

Everything beyond TMA limits is considered en-route airspace (and is considered as Class A SFC-UNL).

VFR within PERTH TMA 2 (class E)

Dear ATC24 players, flying in uncontrolled airspace doesn't mean you can crash into other aircraft. Pilots MUST always avoid any collisions. Also, blocking approach paths for IFR traffic is considered dangerous, thus cannot be done even in uncontrolled airspace.
